

ELLE TENS UNIT

Overview of TENS Unit Video

EBB Review of using TENS Video

Burst vs Boost

Burst pulsates on and off, but during contractions push the Boost button for continual stimulation.

Increase the power as needed on the individual channels.

Mode 1 vs Mode 2

Mode 1 is for early labor and then switch to Mode 2 for active labor.

Opti Max

Starts at 150uS. You can toggle is down to 50uS or up to 250uS.
